Purpose: Gather/Obtain Info

Narrative:

10/21/2009

Renesha Allen (25) was interviewed. She said that someone had already come out (CYC), and they didn't find anything wrong. She asked why was I there. I explained that CYC came out to see if the situation was stable or to stabilize it. I explained that I was the investigative worker, and the case could not be closed until the investigation was completed. I explained to Ms. Allen that the concern was that there were allegations of drug use, and she had a drug history. I explained that the allegations of sexual abuse to Katelyn, and due to the age of the children, I needed to make sure that the children were not at risk. Ms. Allen said this was all her mom calling in on her. She said, "My mom has called four times." Ms. Allen alleged that her mother knows that her children are not being sexually abused. She is just trying to get custody of my children, mom said. Ms. Allen alleged she was sexually abused when she was younger, and her mother, Teresa Allen, did nothing to protect her. Ms. Allen said that her mom is bipolar, and she does not take her medication. Ms. Allen said, when her mom takes her medication, they get along fine. She said that her mom wants custody of her kids. Ms. Allen said her mom had the kids before, and her mom had a four bedroom house, and when the children came back to live with her, they cut her housing, and now she is in a one-bedroom apartment. Ms. Allen denied drug use. She said that she went into the Bonita House before to get clean. Ms. Allen said that she has her own apartment, a car, and a job. Ms. Allen said she works for the daycare associated with Bonita House named Kids Are People Too. Ms. Allen said she can't believe that her mom is doing this again. She said she just started allowing her mom to see the children again. I explained that we were asking that she take a drug test. Ms. Allen became very emotional and began to cry. I explained that, if she was clean, after she takes the test and passed, it is possible to have the case closed. Ms. Allen asked if she could take the test next week. She said that she can't take time off from work. I explained that I needed her to take the test by Friday. It was Wednesday evening, late. I explained, if she did not take the test, I would feel that she had something to hide. Ms. Allen said that she was just tired of going through this because of her mother. I explained that, if all the allegations of drug use were false, the way to clear it up was to take the drug test. Ms. Allen clearly did not want to take the drug test. I told her she needed to take the test or I would have to re-staff the case with my supervisor. Ms. Allen agreed to take the test. When asked about the Mr. Moore, mom denied that that was her boyfriend. She said he is just a friend that comes over. Mom eluded that he was kind of like a sugar daddy.
